

## WF-3100 POWER PRO™ REMOTE CONTROL SERIES WF-3154 POWER MINI

# PWR mini

# Bluetooth Remote Control Technology

WF-3154

WFCO Technologies' Power Mini system provides a user-friendly, simple to install digital control system option. RV owners will have flexibility in controlling their RV through the traditional wall mounted switches or through the robust mobile app. WFCO's Power Mini makes your RV your own with the ability to customize your settings, modes and notifications.

### Power Mini System Features:

- System is designed to work with existing wall switches or mobile app.
- Secure Bluetooth pairing and connection of mobile app.
- PIN protected motor controls in mobile app.
- The “always active and selectable” output circuits allow for design flexibility and eliminates confusion.
- 100% user privacy - no data collection.
